## 2 Remuneration arrangements

The Firm has adopted a remuneration policy and procedures that comply with the requirements of chapter 19G of the FCA's Senior Management Arrangements, Systems and Controls Sourcebook (“SYSC”).

In accordance with MIFIDPRU 8.6.2, the Firm makes the following qualitative remuneration disclosures:

- The Firm’s remuneration policies and practices are reviewed annually to ensure they are appropriate and proportionate to the nature, scale and complexity of the risks inherent in the business model and the activities of the Firm.
- The Firm’s Governing Body, also acting as the Remuneration Committee, is directly responsible for the overall remuneration policy of the Firm.
- The Firm ensures that its remuneration structure promotes effective risk management and balances the fixed and variable remuneration components for all staff members.
- Variable remuneration is adjusted in line with capital and liquidity requirements, as well as the firm’s performance.

The Firm’s Remuneration Policy sets out the criteria for setting fixed and variable remuneration. All remuneration paid to staff members is clearly categorised as either fixed or variable remuneration.

Fixed remuneration is based upon a staff member’s professional experience and organisational responsibility. It is permanent, pre-determined, non-discretionary, non-revocable and not dependent on performance.

Variable remuneration is based upon staff members performance or, in exceptional cases, other conditions.

Performance reflects the long-term performance of the staff member, as well as performance in excess of the staff member’s job description and terms of employment, and could also:

- include discretionary pension benefits; and
- include carried interest, as referred to in SYSC 19G.1.27R.

Total remuneration is based on balancing both financial and non-financial indicators together with the performance of the Firm and the staff member's business unit.

The Firm ensures that fixed and variable components of the total remuneration are appropriately balanced; and the fixed component represents a sufficiently high proportion of the total remuneration to enable the operation of a fully flexible policy on variable remuneration.

The Firm monitors fixed to variable compensation to ensure SYSC 19G is adhered to with respect to Total Remuneration.
